

June 13 / Administration of William J. Clinton, 2000

So I want to ask you all to remember this fine woman that hauled herself all the way here from Idaho. And she's still vigorous. She's still got a lot to give, and there's millions like her out there, and we owe it to them to do the right thing. And I want you to stick with these Members of Congress behind me. I thank them for being here. Let's get this done this year.

Thank you very much.

NOTE: The President spoke at 10:15 a.m. in Presidential Hall in the Dwight D. Eisenhower Executive Office Building. In his remarks, he referred to Medicare recipient Ruth Westfall, who introduced the President.

Statement on Senate Action on Legislation To Establish a National Drunk Driving Standard

June 13, 2000

I applaud the Senate Appropriations Committee for passing an important amendment that will help put the brakes on drunk driving across the country. I strongly support Senator Lautenberg's amendment that would help create a national standard for impaired driving of .08 blood alcohol content (BAC). This is a reasonable, commonsense standard that could save an estimated 500 lives a year, while still permitting adults to drink responsibly and moderately.

Together, we have made great progress on reducing drunk driving in America. In 1999 the number of people killed in alcohol-related crashes hit a record low. But we still lose far too many American lives to drunk drivers: one American is killed in an alcohol-related crash

every 33 minutes. Over 15,700 Americans lost their lives in alcohol-related crashes in 1999 alone. We simply must do more.

Senator Lautenberg's .08 BAC legislation will help build on our efforts to keep drunk drivers off our streets. I commend Senator Lautenberg for his continued leadership in this area, and Transportation Subcommittee Chairman Shelby for including this bipartisan, life-saving amendment in the FY 2001 Transportation Appropriations bill that passed in the full Appropriations Committee today. I urge the Congress to act quickly to pass this legislation to save more lives by making .08 BAC the legal limit across the country and without further delay.

Message to the Congress Transmitting a Report on the Wekiva River and Tributaries in Florida

June 13, 2000

To the Congress of the United States:

I take pleasure in transmitting the enclosed report for the Wekiva River and several tributaries in Florida. The report and my recommendations are in response to the provisions of the Wild and Scenic Rivers Act, Public Law 90-542, as amended. The Wekiva study was authorized by Public Law 104-311.

The National Park Service conducted the study with assistance from the Wekiva River Basin Working Group, a committee established by the Florida Department of Environmental Protection to represent a broad spectrum of en-

vironmental and developmental interests. The study found that 45.5 miles of river are eligible for the National Wild and Scenic Rivers System (the "System") based on free-flowing character, good water quality, and "outstandingly remarkable" scenic, recreational, fish and wildlife, and historic/cultural values.

Almost all the land adjacent to the eligible rivers is in public ownership and managed by State and county governments for conservation purposes. The exception to this pattern is the 3.9-mile-long Seminole Creek that is in private ownership. The public land managers strongly
